Manage Your Customers in Partner Center

Follow these steps to connect with First Distribution as your Indirect Reseller and jumpstart your Microsoft Cloud Solution Provider practice

1. Enroll in the CSP Program and set up Partner Center
   - As an indirect reseller in CSP, you work with indirect providers (also known as distributors) who have a direct relationship with Microsoft and can provide you with customer support and billing. This means you don’t have to begin on your own but can instead work with an experienced technology provider to help ensure your success. In the provider-reseller (two-tier) model, the provider buys cloud solutions and services from Microsoft that you resell to customers.

2. Accept Partnership request and Partner with FD
   - 1. Accept the indirect provider Partnership link to authorize Epsidon Technology Distribution T/A First Distribution as your indirect provider.
   - 2. To confirm the partnership with First Distribution, check the box and then select Authorize indirect provider. First Distribution is now listed on your Indirect providers page and your company is now listed on our Indirect resellers page.
   - 3. Select Indirect providers from your Dashboard menu to see a list of the providers you have a partnership with.

3. Reseller relationship request link to CSP customers
   - 1. Select View customers to see a list of the customers you and the provider share. Note: the first time you check this, you will not see any customers. See next steps on how to add your customers.
   - 2. Select Invite new customers to ask a new customer to authorize reseller relationships with both you and your indirect provider at the same time. Be sure to have the customer’s email address on hand so you can email the invitation to them.

4. Manage customers within your Partner Center profile
   - After the customer authorizes you and your provider to be their reseller of record / indirect reseller, you’ll have administrator permissions to manage their subscriptions, licenses, and users on their behalf.
   - To manage the customer’s account, services, users, and licenses, expand the customer’s record by selecting the down arrow near their name.

This Partner Center link can manage end users in the following regions:
- WECA Portal
- Angola
- Benin
- Botswana
- Burkina Faso
- Burundi
