[March 1, 2022, new promotional discounts](#)

The previously announced [March 1, 2022, Modern Work pricing changes](#) went into effect as planned. Due to high demand leading up to this date, more time was needed for partners to submit transactions for these Modern Work SKUs in new commerce. Therefore, Microsoft has enabled additional promotional discounts on these SKUs from February 28, 2022, until March 15, 2022.

All CSP new commerce transactions for the commercial Modern Work SKUs listed that are submitted into the system no later than March 14, 2022, at 5:00 PM Pacific Time or 12:00 AM UTC on March 15, 2022, will find the promotions applied with deeper discounts than the 5 percent annual and 16.7 percent monthly term new commerce promotional discount percentages. These additional discounts are intended to offset the March 1 price increases. Transactions that are submitted after March 14, 2022, at 5:00 PM Pacific Time will apply the regular 5 percent annual and 16.7 percent monthly term promotional discounts until the previously announced end dates of March 31, 2022 (annual term), and June 30, 2022 (monthly term). Partners can also call the [getPromotions API](#) to get the discount details.

The following table lists the product SKUs, along with their promotion IDs, that will receive deeper promotional discounts until 5:00 PM Pacific Time on March 14.

Verify promotions before being billed

Partners can check the estimates file or unbilled open period line items by going to the Partner Center billing page or by calling the Partner Center APIs to see if promotions were applied to a transaction. The **PromotionID** indicates whether or not the promotion was applied, and the **EffectiveUnitPrice** indicates the price after discount. On average, these details are updated within six hours after the transaction. However, sometimes they can take as little as one hour or as long as 24 hours due to system latency.

Partners can also verify if the promotion was applied to the Partner Center order history and activity logs. You can find more information about billing and reconciliation files in the [New commerce operations guide](#).

New Commerce Launch Promotional Discounts

In January 2022, promotions were made available on most commercial seat-based offers (with the exception of Windows 365) in new commerce:

- A 5 percent discount on annual-term offers
- Monthly term offers priced the same as annual term

Monthly term promotional pricing will be in effect through June 2022. Annual term promotional pricing will be in effect through March 2022; however, Microsoft reserves the right to extend annual term promotional pricing up to, and including, June 2022.

Offer details

Monthly offers (January–June 2022)	Annual offers (January–March 2022)
16.7% discount* versus list price (to match legacy annual)	5% discount versus list price
Limited to 2,400 seats per subscription Modern promo via API Not on price list; available to all partners	
Available worldwide, except Brazil	

* Discount is calculated as $(\text{promo price} - \text{list price}) / \text{list price}$. Promotions don't apply to nonprofit, academic, and government prices available in CSP. Monthly offers have a 20 percent premium over the equivalent annual offer.

Additional information

Purchase price and details:

- You can view promotional details by using the Partner Center API or viewing the promotion in the Partner Center catalog.
- Apply the percentage discount in the promotion details to unit prices on the posted price list to determine the expected price.
- You can find purchased promotions in the recon file after the purchase is billed.

Seat constraints for these promotions:

- These promotions enforce a maximum number of seats per subscription of 2,400. The limits are enforced at the promotion level. For example, if a partner tries to purchase 3,000 seats, the promotion will not be applied. This limit holds true for the term of the subscription with the promotion.
- Additional seats may be added to a subscription with a promotion to the maximum seat constraint (2,400).
- Additional seats may be added following the promo period at the promo price up to the maximum seat constraint (2,400).
- Any seats on a subscription that was purchased before the start of the promotion on January 10 will not count against the 2,400-seat limit for a subscription on the promotional price.

Auto-renewal:

- Annual—At the end of a 12-month subscription, the promotion renews into regular price, which includes any price increases that might have been announced.
- Monthly—renews monthly at the promo price during promo term. Once the promotion ends (June), the subscription will renew into the regular SKU price, which will include price increases that went into effect during the promo period.

Customer eligibility

Customer must be active on DPL Enhancement Plan to qualify. This promo can only be acquired for **new customers**. Customers with previous base product SKUs (legacy or new commerce) cannot acquire this promotion. Customers who don't qualify can purchase product SKU at nonpromotional price. (The 5 percent new commerce annual promotion will not be applied).

End customer value prop

- Price point equal to EP renewal quote

Partner value prop

This promo will allow you to market effectively against Salesforce Essentials.

How it works

Partner role: Steps to ensure that customers continue to receive their EP benefits and access their on-premises solution.

1. Ensure that customers meet the licensing requirement—Dynamics 365 Business Central online purchase with an annualized total greater than or equal to their EP renewal amount.
2. Submit the customer's CSP order confirmation, and one or more of the following to the Regional Operations Center (ROC):
 - a. PartnerSource Business Center (PSBC) account number (preferred)
 - b. Customer tenant ID
 - c. Order confirmation for the initial order (order start date, promo name, quantity)
 - d. If you're not a SPA partner and don't have access to PSBC, send the information to one of the following email addresses based on your customer's country location:
 - US, Canada, Latin America (LATAM): mbsorder@microsoft.com
 - Europe, Middle East, Africa: mbsquery@microsoft.com
 - APOC, China, Japan, India: mbslques@microsoft.com
3. Partner must ensure customer's continued compliance throughout the year. Customers who don't remain active on CSP will be liable for EP lapsed fees from the period that they enrolled in the promo.
4. Current PSBC partners will need to opt their customers out of autobill to prevent autorenewal of the next year's plan.
5. Partner must provide:
 - a. Partner MPN ID
 - b. Partner PSBC account (if applicable)
6. Partner questions: Email your ROC.
