# Unlock AI-powered productivity and business insights

Empower your workforce with technology to achieve more and drive better business outcomes

Businesses face several challenges connecting their people, processes, and data to unlock productivity and business insights. We have seen:

64% — 64% of employees report that they do not have the time or energy to get their work done[1]

21% — Only 21% of employees feel engaged at work[2]

3.6 HOURS — Employees spend 3.6 hours a day searching for the information they need[3]

40% — 40% of workers say they spend a quarter of their week on repetitive tasks[4]

Unlock new possibilities with AI

Artificial intelligence (AI) allows SMBs to be more collaborative, productive, and impactful with actionable insights.

14%
AI can improve employee productivity by **14%**[5]

29%
29% of managers say that AI can help automate mundane tasks for their workers[1]

70%
70% of employees would delegate as much work as possible to AI to lessen their workloads[1]

2025
40%
By 2025, AI can improve decision-making by 40% in some companies[6]

Deploy a next-generation AI solution with us

Leverage our Microsoft expertise to empower your employees with next-generation AI. Microsoft Dynamics 365 Business Central enables you to:

- Optimize processes
- Automate workflows
- Work seamlessly with Microsoft 365 apps like Teams, Outlook, and Excel
- Get contextual guidance within the flow of work
- Access real-time dashboards and KPIs
